| Radio Frequency Ablation Additional | \$753.00 | 64636 |

SURGICAL PROCEDURES

- Please call **970-858-2196** to obtain an estimate for surgical procedures.
- The pricing for all surgical procedures, both inpatient and outpatient, are quoted in a cost range.
- These procedures vary in price dependant on the surgical provider (surgeon) of the service.
- These prices do not include your physician's fees. Your surgeon and anesthesiologist will bill you separately.
- Surgeons use different equipment and implants (hip, knee and other replacement joints made by various manufactures), and take varying amounts of time to perform the same procedure.
- The amount of time in the operating room may vary due to many factors, including the patient's health condition or the physician's approach to the particular procedure.
- Please obtain as much information from your surgeon as possible before calling the hospital to obtain an estimate.
