2022
ANNUAL REPORT

Together we flourish

Family Health West was built by the people of the Grand Valley. The commitment to nurturing a growing Mesa County continues to inspire us today. As we look forward to the future and new horizons in healthcare, we take forward the spirit of dreaming, to build the more beautiful future we believe is possible.

In 2022, Family Health West Hospital and all supporting clinics united with one name, in one voice, and under one vision. As part of the Family Health West (FHW) health system, more than 30 clinics and a number of unique programs are available to you and your loved ones when you need us most.

The FHW rose: a symbol of passion, prosperity, resiliency, and rootedness

The rose embodies our story. It's a symbol of passion, prosperity, resiliency, and rootedness. From the foundation of Fruita, Willam Pabor envisioned the desert transformed into rose-covered cottages and flourishing orchards. Along with our neighbors in the Grand Valley, Family Health West has withstood flood and famine, turning the desert into a flourishing community crafted by caring and passionate hands.

When you see the rose, you see the Family Health West promise

Family Health West is dedicated to supporting our community by reinventing the healthcare experience with a focus on quality outcomes. We strive to provide warm, compassionate service to make every patient's day a little bit better.

Making every patient's day a little bit better

We are passionate about what we do and the people we serve. We truly and wholeheartedly believe in enriching healthcare for the people of our community. Despite the inherent challenges in healthcare we remain committed to providing the best service to you, our patients.

Here when you need us most
